SUMMARY

A passionate Full-stack Developer graduate with hands-on experience in UX/UI Design and Software Testing through academic projects. Committed to transforming complex technologies into intuitive, reliable digital experiences, with a primary focus on delivering bug-free, high-quality results.

PROJECT EXPERIENCE

KU Renter Management System - Web Application

Tech: HTML , CSS , Bootstrap , Laravel (PHP Framework) , MySql

- Developed an end-to-end Renter Management System for Kasetsart University, streamlining the entire rental lifecycle from contract management and space allocation to an integrated announcement hub. The platform features a dedicated tenant portal for real-time expense tracking and online payments, enhancing operational efficiency and ensuring full transparency across all processes.

Pakrung - Mobile Application

Tech: Flutter , Firebase

- Design and develop a mobile application for the Buddhist community to be a spiritual support with 4 main features: 1. Prayers with explanations and properties 2. Playlists of prayers, mantras, and reminders 3. Fortune telling sticks 4. Amulet market for buying and selling between users

Chiracare - Military Hospital Management System

Tech: HTML , CSS , Bootstrap , Laravel (PHP Framework) , MySql

- Design and develop a patient data recording system, treatment appointments, and symptom tracking in various departments, including tracking mental symptoms of conscripts. The system was developed in collaboration with Chiraprawat Hospital.

EDUCATION

Mae Fah Luang University

Bachelor of Engineering

- Major: Software Engineering
- GPAX : 3.59

Chiang Rai, Thailand

2022 - 2026

Chonradsadornumrung School

High School Diploma

- GPAX : 3.35

Chonburi, Thailand

2019 - 2022
